In speaking of the cattle sales the Kansas City Star, October 5, says:

The receipts of cattle were moderate at the stockyards to day. Half were in the Texas division. The others were mostly Western. Good to choice cattle were scarce Demand was good, the tone of the market better, and all desirable steers were active and strong. Common steers steady. The run of cows was ligh

common as a rule. There was deman every cow fit to kill, and this market an strong at 10 cents higher for the best o ngs, with ready sales, but eased off to a teady close. There were sales or low grades at unchanged ralues. The feeder trade was values. The feeder trade was quiet—almost dull—for lack of supplies of good gradss. Prices remain the same. The 000 Texas cattle attracted some notice after lexis cattle attracted some notice after the late light runs. Nearly half were cows, and aside from a few good bunches the quality was only fair throughout. The market was rather active and strong for the good; common were unchanged, but there were a few sales 10 cents higher.

Quite a number of steers are shipped from Southern Arizona to pastures, and ranges in the state of Nevada. They can be shipped there almost as che ply as to Kansas or Nebraska, and the dvantage to the Arizona men is that they do not g to a market where the buyers are so par do ular as are the seekers after tooke, and ecders, and the prices paid are
